The notified entry, word for word

Schedule VI, Part A, category 1, serial 1, notified vide S.O. 876(E) dated 16-02-2026

Composition	Content
Humic acid (Source: Leonardite) per cent. by weight, minimum	5.0
Potassium as K ₂ O per cent. by weight, minimum	5.5
Ammonium lauryl sulfate (anionic surfactant) per cent. by weight, minimum	9.5
Sorbitols/carboxylates/sulphates per cent. by weight, maximum	80
Total (per cent.)	100

Specifications	Value
Humic acid per cent. by weight, minimum	5.0
Bulk density (gram/cc)	1.0 ±0.02
pH (1% aqueous solution)	4.0-5.0
Total organic carbon per cent. by weight, minimum	3.0
Solubility per cent. by weight, minimum	100

Crop	Dose
Chilli Pepper	Three foliar applications at 250 gram/ha

How to read this report

- **Critical:** a particular the Order, the notified entry or the Legal Metrology rules require is missing or wrong, or the label says something it may not. **Major:** a required particular is incomplete. **Minor:** a recommendation, or a small difference. **Advice and To fill in** are not scored.
- The score is the share of the checked items that are right, weighted 3 for critical, 2 for major and 1 for minor items.
- Items marked "Recommended" follow the standard of NanoKheti's label maker; we have not tied them to a specific provision.
- The review checks what is printed, not the type size, colours or the placement of the particulars. It reads the text the customer confirmed; a word read wrongly and not corrected changes the result.
- Get a label in the notified format: nanokheti.com/label/ (Rs. 49 + GST). A QR code as the Ministry asks: nanokheti.com/label/qr/ (Rs. 69 + GST).
